LineTech Shift Report

Rovema · Day shift 2026-01-12

12 Jan 06:00 GMT to 12 Jan 14:00 GMT

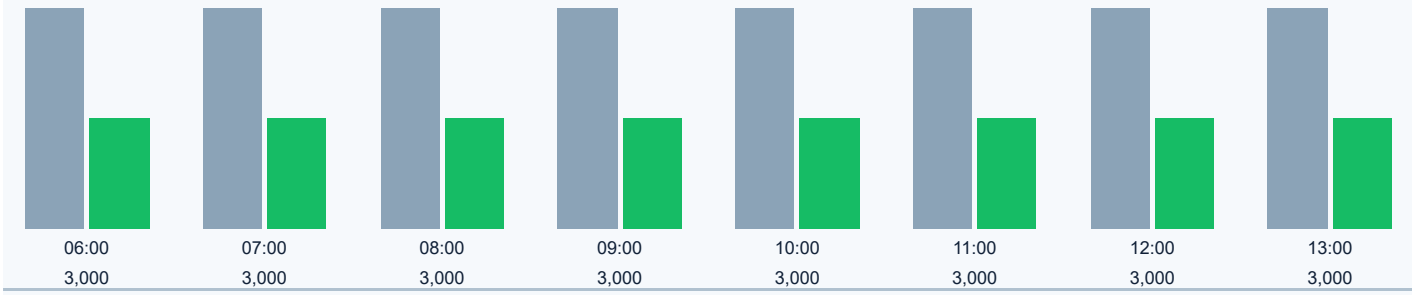

Sample technician

Completed reporting period · Version 1

50.0%	24,000	48,000	440.0 min
Output vs Target	Actual Packs	Target Packs	Running time*

Hourly output

Grey: target · Accent: actual · Blank readings are not zero

Based on recorded line hours.

Downtime summary

15.0 min	25.0 min	0.0 min
Planned · 1 events	Unplanned · 1 events	Changeover · 0 events

Key events

Time	Machine / type	Details	Duration	Status
12 Jan 07:00 GMT	Line / Planned	Film change	15.0 min	Completed
12 Jan 09:00 GMT	SBS BV2 / Unplanned	Top seal fault	25.0 min	Completed

Recorded checks and tasks

Time	Task	Technician	Outcome	Note
No recorded events				

Outstanding issues

Machine	Issue	Raised
No recorded events		

Handover notes

Synthetic demonstration data - not a live production report.

One older Engineering job remains outstanding.

Synthetic preview only. Check the outstanding casepacker job before restart.

Calculation and traceability

Recorded line-minutes, clipped to period; Not Scheduled excluded. Overlaps allocated once per line: changeover, planned, then unplanned. Event durations may overlap; allocated totals do not.

*Running time is time not recorded as stopped; it is not a verified machine running-time measurement.
