Handover notes

Synthetic demonstration data - not a live production report.

One older Engineering job remains outstanding.

Synthetic preview only. Check the outstanding casepacker job before restart.

Calculation and traceability

Recorded line-minutes, clipped to period; Not Scheduled excluded. Overlaps allocated once per line: changeover, planned, then unplanned. Event durations may overlap; allocated totals do not.

*Running time is time not recorded as stopped; it is not a verified machine running-time measurement.
